Learner Kit

Every learner will need their learning kit. This kit equips them with the information and tools they need to enhance their self-awareness and apply their learning back in the workplace.

Each kit includes:

- **The Insights Discovery Personal Profile** – an in-depth, fully customised personal profile that provides the learner with information about their working approach, communication style and blind spots. Every profile comes with the Foundation Chapter.
- **The Insights Colour Blocks** – a visual representation of an individual's colour preference order to be displayed
- **Introduction to Insights Workbook** – one per delegate to be used within the session and to keep afterwards for reference.
- **Basics of Insights Discovery pre-learning module and Mini Foundation Reference Guide** – a short e-learning module that learners attend before their session to understand the basic concepts they'll be exploring, alongside a short guide that contains all the key learning to refer back to
